Power-Diving Nazi Planes Lash Balloon Barrages With Widespread Bombing and Machine-Gunning Throughout Britain; Italian Vessel Shelled in Tobruk Harbor; Egypt Becomes Restive

RUMANIA ANNOUNCES ANTI-JEWISH MEASURES

By The Associated Press
Belligerent powers settled down today to a punishing war of air power and the United Kingdom, the European continent and Africa felt and heard the crash of bombs, the thunder of anti-aircraft fire and chattering of machinegun fire in growing volume.

Italy claimed further gains in her hard drive into British Somaliland and all the belligerents issued communiques telling of aerial exploits.

The Germans said: "Their methodical bombers, working 'on schedule,' blasted British airfields and munitions plants, causing great fires and explosions, destroyed an airport runway north of Bristol and blasted shipyards; German anti-aircraft batteries brought down two British planes, bringing their total bag for the war to 1,500 'enemy' planes."

The Italians said: "Their columns, pushing into Somaliland, have passed Addis Ababa, east of Hargeisa; their planes bombed Berbera, main seaport of British Somaliland; their warplanes hit British objectives along the Egyptian coast; British battleship Resolution and a destroyer were damaged seriously by bombs Aug. 1."

The British said: "Their aircraft bombed an Italian vessel in Tobruk Harbor, Libya, setting it afire; French pilots cooperated in reconnaissance and then RAF bombers struck at positions the Italians had set up near Hargeisa; British bombers made a successful, damaging raid on Massaua, Eritrea; the British south African air force blew up two Italian bombers and damaged two others at the Italian airbase at Addis Ababa, Ethiopia."

All day long the German raids on Britain continued, causing a number of casualties and provoking dog fights with defending fighters.

Germany, serving notice she is prepared as well for a long war as for a blitzkrieg, announced through press and radio that her own food supplies and those of the Balkan states are ample to last the winter, and that the fate of the people in countries she has occupied is no great concern of hers.

There appeared to be at least one ally in the Nazi continent, however. In Bucharest, Rumanian officials lauded Russia's grab of Bessarabia and northern Bucovina had deprived Rumania of crops that would have been sufficient to fill

Duchess of Windsor is Already Proving of Considerable Aid to Husband on the Islands
Hamilton, Bermuda, Aug. 10.—(P)—The Duchess of Windsor, who will be first lady of the Bahamas when the Duke goes there to assume his duties as governor, already has proved of considerable aid to her husband in the islands. Throughout the long interview they gave the press yesterday, the duke noticeably depended on the duchess for whispered prompts. Both seemed amused at the opening formality of reporters, who had been coached carefully in the proper form of address. The royal couple soon set the interview on such an informal plane that the duchess was able to say "Your Royal

FARLEY ACCEPTS POSITION WITH SOFT DRINK FIRM

Retiring Postmaster General and Democratic National Chairman is Appointed on Board of Coca-Cola Export Corporation at Wilmington

STILL AFTER YANKEES

Wilmington, Del., Aug. 10.—(AP)—James A. Farley, retiring postmaster general and Democratic national chairman, today was appointed chairman of the Coca-Cola Export Corporation.

Robert W. Woodruff, chairman of the Coca-Cola Company's board of directors, announced Farley had accepted a position "in charge of all export business and particularly of the expansion of our business in foreign countries."

Farley's resignation as Democratic national chairman becomes effective August 17 and he leaves the cabinet August 31.

Woodruff indicated the retiring postmaster general would report here after a vacation and said his headquarters would be in Wilmington.

A company spokesman said Farley has been "acquainted for years" with Woodruff and that his appointment climaxes discussion between the two "over a considerable period of time."

It is up to Farley, the spokesman added, to say whether he will disclose his salary and when he will start his new job.

In New York, a close friend of Farley said the postmaster general's new position with the Coca-Cola Corporation in no way would interfere with his negotiations to buy the New York Yankee baseball property.

He added, in fact, that the transaction probably would be completed next week.

Farley and a group of unidentified associates have been reported to have offered approximately \$4,000,000 for the club.

Farley has refused comment on all questions concerning the Yankee deal. Friends said his Coca-Cola position would be his only business connection in private life, except for the Yankee matter.

GIRL SAYS SHE WAS KIDNAPED BY MASKED MAN

Baden, Pa., Aug. 10.—(P)—A masked gunman kidnaped a 10-year-old Baden girl early today after forcing her to get into her automobile from this Beaver county community.

Colleen Hetherington told Corp. Paul Rittelmeyer of the State Motor Police the hooded man drove her over country roads for more than an hour and then left her in the machine near her home.

The girl related, Rittelmeyer said, that the man forced her to get into the car, and then drove into the country after entering the car parked on a lane two blocks from her home about 1:15 A. M. (E. S. T.)

Johnson was put out of the machine a mile east of Baden and told by the masked man to walk home. Johnson ran to a nearby farm house and aroused the occupants who drove him to Ambleridge police station where he notified State Police.

RICE BELT CITY IS INUNDATED

Crowley, La., Aug. 10.—(P)—The coast guard and Red Cross moved today to evacuate all 10,000 residents of this rice belt city in the greatest rain flood of Louisiana history.

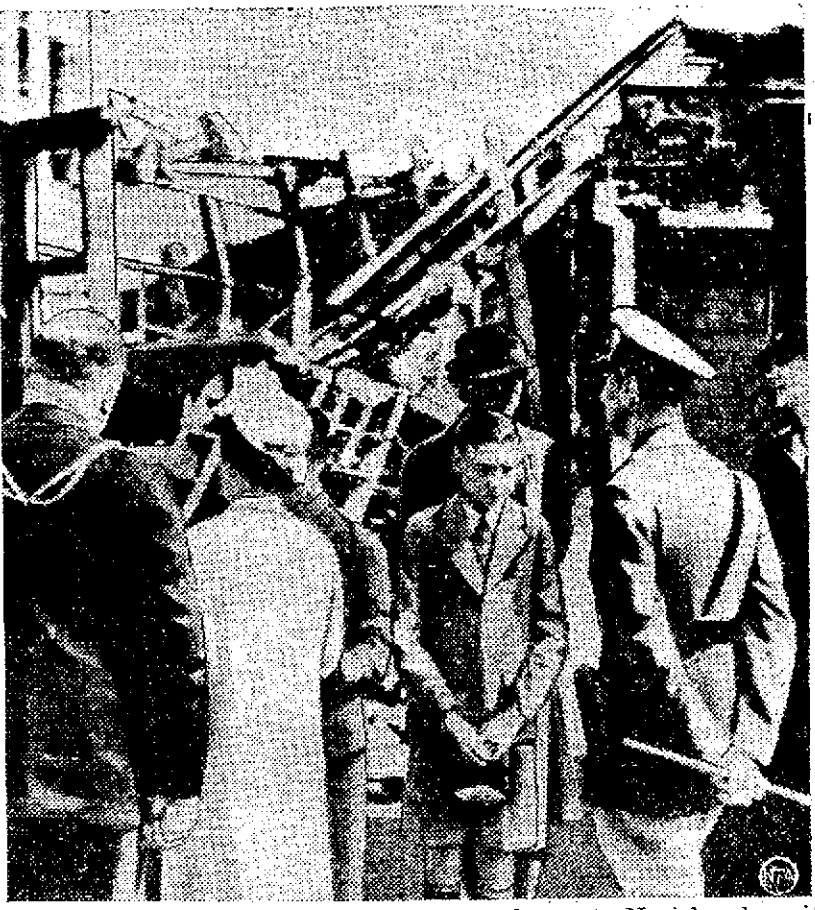

Bread and milk were the only foods available this morning, coast guard officials said, and sanitary conditions were becoming acute.

All residents were taken from their homes to the court house, school buildings, rice warehouses and other large buildings.

Precipitation which followed last Tuesday's tropical storm totaled as much as 24 inches in 24 hours in some parts of southwest Louisiana.

A score of towns and communities were inundated, some without water, lights or sewer facilities, and many homes were reported to have drifted away. Rice, cotton and corn crops were heavily damaged. Roads were blocked.

RUMANIA PUTS INTO FORCE NEW ANTI-JEW LAWS

Bucharest, Rumania, Aug. 10.—(P)—The government, forced by Axis desires to negotiate forthcoming territorial cessions to Bulgaria and Hungary, vented its wrath today on the Jews.

In placing new anti-Jewish laws into full effect, the government apparently was motivated by the fact that the most Nationalistic Rumanian elements, which are opposing any territorial cession, also are the most anti-Semitic.

Taking their cue from Premier Ion Gurgiu's assertion that obedience to German-Italian wishes, while necessitating "painful sacrifices," "at least" would rid Rumania of "Jewish influence," the newspapers devoted many columns to anti-Jewish measures and resultant "benefits" to non-Jews.

Explanation of the laws thus was given far more space and prominence than the speech in which the premier said it was necessary for Rumania to give up part of her soil.

BLOOD DONOR RUSHED TO YOUTH BY PLANE

Buffalo, N. Y., Aug. 10.—(P)—Condition of 12-year-old Richard Mack, a policeman's son, was reported "unchanged" early today after a blood transfusion which brought a donor from Pittsburgh, Pa., by airplane.

The donor, Elwood Dikla of Philadelphia, a gymnastics teacher at a summer camp 58 miles from Pittsburgh, arrived last night after a 90 minute flight, and was rushed immediately by police car to the youngster's bedside.

The boy's physician, Dr. William Handel, said the youngster was in critical condition from a staphylococcus infection.

CREWLESS SHIP FOUND

Gijon, Spain, Aug. 10.—(P)—A crewless ship, heavily laden with grain, was towed today in to port at Aviles by fishing vessels which found her drifting 40 miles from shore in the Bay of Biscay. Advice from Aviles said the ship had been identified as the 8,000-ton Greek freighter Basilio Deustonis. (Lloyd's register does not list a ship by that name.)

State Crops Appear Favorable in Spite of High Temperatures of Latter Part of July

Harrisburg, Aug. 10.—(P)—Pennsylvania crops have proceeded favorably despite high temperatures in the latter part of July. The Federal-State Service reported yesterday.

Throughout the state, temperatures averaged 7 degrees above normal, and precipitation was nearly an inch below normal.

Specific crop conditions reported at the beginning of this month: "Corn developed rapidly during the last two weeks of the month. Many fields are in tassel but the crop is generally late, especially in northern counties."

"Buckwheat planting was delayed because of the lateness of the season. There was a sharp reduction in acreage in many localities."

"July heat was hard on the Pennsylvania potato crop but well-sprayed fields stood up fairly well. Condition of the crop as a whole is good. Some localities, mostly in the northwestern part of the state, are urgently in the need of rain; others report considerable tipburn and some fields are showing blight, but not of serious proportions."

NAVY BASE VISITED BY PRESIDENT

Chief Executive Begins Week-end Inspection of New England Sea and Land Defenses by Observing Conditions at Portsmouth Where Five Submarines Costing \$27,500,000 Are Being Built and Plans for Other Units Drafted

AT LEAST FOUR MORE TOURS CONTEMPLATED

BY DOUGLAS B. CORNELL
Portsmouth, N. H., Aug. 10.—(P)—President Roosevelt began a week-end inspection of New England sea and land defenses today by observing conditions at the Portsmouth navy yard where 11 submarines costing approximately \$55,000,000 were being built, reconducted or in the planning stage.

Accompanied by Secretary of the Navy Frank Knox, the chief executive arrived by train at 7:59 a. m. (Eastern Standard Time) from Hyde Park, N. Y., and went immediately to the yard. Francis P. Murphy, Republican governor of New Hampshire, joined the presidential party at the railroad station.

New Hampshire and Maine State Police combined with Secret Service men closely guarded the president as he was driven under a scorching sun to the yard over a route from which traffic had been cleared.

Within an hour of his arrival at the yard the president boarded the White House yacht, Potomac and headed for the Boston navy yard.

The program for the rest of the day included:

A cruise from Portsmouth to Boston to view destroyer construction at the Boston navy yard, with a pause at Nahant, Mass., to let Mr. Roosevelt see his youngest grandchild, Haven, son of the president's youngest son, John.

300 FROM PENN'A TO MAKE TRIP TO ELWOOD

Harrisburg, Aug. 10.—(P)—Pennsylvania will be represented by more than 300 persons at the Willkie acceptance speech program next Saturday at Elwood, Ind., the committee on arrangements for the Republican state committee estimated today.

The Pennsylvania delegation, headed by Governor James U. S. Senator James J. Davis and State Chairman James F. Torrance will travel in special trains leaving Philadelphia, Harrisburg and Pittsburgh Friday.

Dr. James K. Loewen, chairman of the committee, said "several Willkie-for-president Democrats already have secured tickets and there will be quite a few on board when the train pulls out."

The trains will be placed on a siding at Elwood and meals served aboard.

Returning, the delegation will leave Elwood at 8:10 p. m. Saturday, August 17, arriving at Philadelphia in mid-afternoon.

Lewis Has Substitute Plan for Conscription

San Francisco, Aug. 10.—(P)—John L. Lewis offered an alternative to conscription today.

"Shorten the period of enlistment to one year and increase the pay of the army, at least until it equals that of the boys in the CCC camps," the president of the Congress of Industrial Organizations suggested.

"You will attract the young men who believe it their duty to the government to be trained as soldiers."

Such a volunteer system, he ventured, would raise an army adequate for all of America's needs.

Lewis, here on a tour of the Pacific coast, said in an interview the CIO was "definitely opposed to conscription."

"So are the AFL and the five railroad brotherhoods," he added. "So are the youth of the nation, the women of the nation, the churches of the nation. It will not come to pass."

Hard-Boiled Army Instructors Turn Penn'a Guardsmen Out For First Field Inspection

Bill to Reimburse Biddle Sidetracked

Washington, Aug. 10.—(P)—Ambassador Anthony J. Drexel Biddle, Jr., arriving home today from the fighting zones of Europe, may have to wait until after the war to collect for his valuable art works and other property lost in the German bombing of Warsaw last year. A bill pending in the Senate since last May to reimburse the envoy to Poland \$243,361 for the destroyed valuables was put aside on the advice of Secretary of State Hull.

The secretary wrote the Senate claims committee that he wanted to facilitate payment of Biddle or others for their losses, but thought it preferable to "await reports from all our officers and employees who may have suffered losses in this particular catastrophe."

The Biddle losses have not been disclosed in detail either by the state department or Senator Guffey (D-Pa.), who introduced the bill. But they were said to include rich tapestries, paintings, and antique furniture.

Second "Attack" in Two Days Draws Soldiers From Their Cots at Dawn As 80-Mile Front Resounds to Crack of Machine Guns

GRUELLING MANEUVERS

Lisbon, N. Y., Aug. 10.—(P)—The second "attack" in two days drew Pennsylvania's National Guardsmen from their cots at dawn today as an 80-mile "front" resounded to the crack of machine guns in the first army games.

The maneuver climaxed a two-day assault designed to recapture strategic bridges and highways taken by an "invading" force. Under the watchful eyes of staff officers, the men plodded over the rolling country-side, tanks rumbled across the huge 80 by 20 mile rectangle and planes roared overhead.

In yesterday's battle the 22d Cavalry turned back, theoretically an invading cavalry force, while the 103d Engineer strengthened roads and temporary bridges. Field communications were set up by the 22d signal troop and the 11th Infantry sent company against company in field drills.

Hard-boiled army instructors turned the boys out this morning for their first field inspection. Men in regiments with available field space "fell out" and threw up pup tents. On top of blankets they piled canteens, knives, forks, and the miscellaneous equipment collected by a soldier. Stern army sergeants passed judgment.

Two Gunmen Surrender to Highway Patrolmen in Oklahoma During Night After Running Fight in Which One is Shot Five Times

VICTIM IS IDENTIFIED

Oilton, Okla., Aug. 10.—(P)—Two prison fugitives who hurled the shot-torn body of a woman clad in red from their speeding automobile, wounded Oilton's police chief and kidnapped a farmer, were held today as officers hunted a motive for the woman's death.

The gunmen, Bill Hall, 25, and Joe Lovelace, 24, surrendered to highway patrolmen west of here last night after a running gunfight. Hall had been shot five times.

Bill Glimp of Drumright, the farmer hostage, had a flesh wound in one leg.

Sheriff L. L. Fisher said Lovelace declared the slain woman, whom he identified as Jeanne Culp, 20, Asher, Okla., was thrown from the car because "she seemed to be dead" and Hall complained (Turn to Page Nine)

BALDWIN PLANT WILL BUILD GIANT TANKS

Philadelphia, Aug. 10.—(P)—Officials of the Baldwin Locomotive Works expect to begin "within six months" production of \$5,689,725 worth of giant tanks for the U. S. Army.

Information on the design of the huge 70 to 80 ton "land battleships" remained a closely-guarded secret but announcement today that 50 had been ordered shipped out in a routine statement yesterday by the National Defense Commission at Washington.

William H. Harman, vice president of the Baldwin Works, said he expected the order to be signed and delivered next week after a few minor changes have been completed.

SLEEPER PLANE INCIDENT CLOSED

New York, Aug. 10.—(P)—Pale and apparently weak, 24-year-old Rosemary Griffith, American Airlines stewardess who said an unknown assailant knocked her unconscious during a flight to Nashville, Tenn., Wednesday, returned to New York today.

She was helped from a sleeper plane into a waiting taxicab, which sped away, presumably to her Flushing home. Efforts to talk with her were unavailing. A spokesman for the American Airlines said: "The case is closed. The girl will go back to routine trips."

Previously, she had repeated at Nashville her story of being felled by a blow from behind by a man who demanded the key to a mail compartment. A key Miss Griffith swallowed before losing consciousness. Since, she has been in a Nashville hospital.

Airline officials said the cabin attendant who was with her did not come to pass.

DENOUNCE MALONEY PROPOSAL

Administration Chief Expresses Opinion to Reporters That Conscription and Voluntary Enlistments Can Not Be Linked Successfully in Such a System as That Offered by Connecticut Senator as Substitute for Bill

WILL RESUME DEBATE AFTER SHORT RECESS

By JACK BELL
Washington, Aug. 10.—(P)—Administration leaders turned a cold shoulder today to talk of a compromise in the Senate fight over conscription.

Senator Barkley of Kentucky, Democratic floor leader, expressed the opinion to reporters that conscription and voluntary enlistments could not be linked successfully in such a system as that offered by Senator Maloney (D-Conn.) as a substitute for the Burke-Wadsworth bill.

Barkley also said he thought opponents of the conscription legislation would muster their maximum strength on compromise amendments. He predicted that if such compromise attempts failed fewer than 25 senators would vote against final passage of the bill.

Opposition senators, meanwhile, were reported to be discussing the possibility of a referendum vote on conscription at the November election. Some of these senators said they were confident that given a chance to express their opinion at the polls, the country would show a majority sentiment against the draft.

Maloney would require registration of all men from 21 through 30, as would the Burke-Wadsworth bill, but he would delay the draft until January 1 while voluntary enlistments were sought. If these enlistments did not fill the army's quota, conscription would be ordered.

(Army enlistments totaled 22,442 in June and 31,958 in July, a peacetime record. The army's strength was 270,183 on July 31, and will be brought to 322,922 as quickly as possible.)

Maloney said his proposal appeared to be attracting increasing support, despite administration opposition and the reluctance of conscription opponents to agree that the draft might be needed while the nation was at peace.

One of the latter group, Senator Nye (R-ND), said he was willing to have men from 21 through 30 registered in order to have the draft machinery ready if war came, but could see no (Turn to Page Nine)

CUDAHY LEAVES FOR LISBON TO CATCH CLIPPER

London, Aug. 10.—(P)—John Cudahy, U. S. Ambassador to Belgium, who created a sensation in London by advocating that the United States feed Nazi-occupied countries, left by plane for Lisbon today en route to the United States, to which he had been called home to report to President Roosevelt.

London newspapers, which have been attacking Cudahy bitterly for the remarks he made in a recent interview, headlined the news of his recall and reprimand yesterday by the State Department.

The Daily Mail today quoted Cudahy as saying "I do not retract one word from what I said." The ambassador told the Associated Press last night that "I have no comment to make."

He had said Belgium and other German-occupied territories now blockaded by the British navy (Turn to Page Two)

Five Dead, Four Hurt In Head-On Collision

Elizabethtown, Ky., Aug. 10.—(P)—Five persons were killed and four others injured early today in a head-on crash of two automobiles two miles north of here.

Three of the dead were identified as Carl Thomas Miller, 22, and Edward Ray Gardner, 26, both of Magnolia, and Walter Polley, 27, Hodgenville. They were occupants of the same automobile.

The bodies of two women were not yet identified. Another woman and three men were taken to Louisville hospitals where their conditions were not considered serious.

Pennsylvania Doctors Are Selected to Care For Industrial Workers in Event of Draft

Pittsburgh, Aug. 10.—(P)—"maintenance of civilian health. These physicians should be exempt from military service. The health of the industrial worker is as vital as is the health of the soldier."

If there is national conscription, physicians will be called as other citizens. Every physician will be listed and it will be possible within a short time to pick out physicians for whatever work they are best suited.

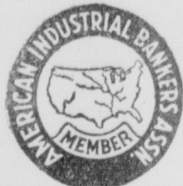

Meanwhile, it was disclosed that western Pennsylvania hospitals have been asked by the federal government to state how many patients each could accommodate in event of an emergency.

would face famine this winter if they did not receive food from America. He also commented favorably on the conduct of the German Army of occupation.

The Daily Mail quoted a friend of Cudahy as saying "Mr. Cudahy knows he is to be censured and that may mean the end of his diplomatic career."

In these circumstances it is likely that instead of remaining in the United States, he would come back to Europe to help with relief work, in which he is deeply interested.

Cudahy left early this morning by flying boat from a seadrome

"somewhere in England" and expected to make quick connections at Lisbon for a transatlantic plane.

An announcement issued at the United States embassy, where he gave the much-discussed interview, said his departure was in line with his original plans when he came to London on "personal business."

School Directors to Consider Fence Bids At Special Meeting

Definite plans to enclose Russell Field, at least partially, may take form early next week when the school board is expected to meet in a special conclave further to consider the bids on a sheet metal fence.

The bids, which did not exactly meet the specifications provided by Lawrie and Green, Harrisburg architects, were opened last Monday evening and were forwarded to the firm for approval.

A letter regarding the plans was received by Superintendent John G. Rossman this morning, and a meeting of grounds committee will probably be called for Monday morning with the entire board acting on the recommendation later in the day or evening.

Homecoming Day at U. B. Church Being Observed Tomorrow

Dr. Hovermale is secretary of home missions and church erection in the United Brethren denomination, having succeeded Dr. V. O. Weidner when the latter was elected bishop to fill the vacancy caused by the death of Bishop A. B. Stratton.

Older members of the local congregation will remember that Dr. Weidner was pastor here when First church was erected and dedicated 18 years ago.

Dr. Hovermale will show pictures of home mission work for the evening service and all members and friends of the church are cordially invited to hear him at both periods of worship.

Direct air mail service will be resumed here Monday when All-American Aviation, Inc., starts pick-up and delivery service on a permanent basis over three routes covering Pennsylvania, New York, West Virginia and Delaware.

Warren is on the Pittsburgh-Jamestown route. The first plane over the new route will arrive here Monday at 12:25 p. m. from Pittsburgh and will complete its flight at Jamestown at 12:37. The southbound plane, leaving Jamestown at 5:23 p. m., will arrive in Warren at 5:35.

At the Warren post office this morning, O. J. Grove, superintendent of mails, said that a considerable amount of philatelic mail has been received from collectors of first day covers for dispatch on the first planes Monday, although this mail is not as heavy as it would have been if a longer notice of the resumption of service had been given.

Mr. Grove said that all mail for dispatch on the planes must be in the post office at least 45 minutes before the scheduled time of flight on which it is to be sent. Northbound mail should be in the post office by 11:40 a. m. and southbound mail by 4:50 p. m.

William F. "Bud" Maier will again be in charge of carrying the air mail between the post office and the airport and will have charge of the local pick-up station.

One thing I like especially about tournament bridge is that it can be played by young or old, weak or strong, those hard of hearing, and even the blind.

I recall in my early tournament days a contest in Newark, N. J., in which a player who was very hard of hearing participated. He had one of those little aids to hearing employing the use of a battery, but, unfortunately, the wire became disconnected from the battery at a critical stage of the bidding. He heard the original bidder say one no trump, his partner passed, and then he heard no more. However, he saw from the third player's lips that he heard said no trump, and just assumed that the raise was two no trump. Little dreaming that North had bid six no trump, he came in with the slightly insufficient bid of three diamonds!

The tournament director was called, and under the rules East was forced to make his bid sufficient and had to play the hand at seven diamonds, which of course was doubled. Down 1400!

After the session he was about to request a committee meeting to protest against the unfairness of the decision, claiming that a physical defect should not cause so severe a penalty. He was informed by the scorer that it might not be advisable to protest, as he had a top score on the board! Everyone else in the room had bid and made six no trump; therefore everyone playing in his direction was minus 1460, against his minus 1400.

BETTER WATER SUPPLY SOUGHT AT SHEFFIELD

Sheffield, Aug. 9.—A campaign was launched some time ago by the township supervisors and school board members to have the quality of the community's water supply improved.

That the campaign is bringing results was seen this week when an inspector from the Meadville office of the state sanitary water board came to Sheffield and inspected the Deerlick watershed and reservoir, main sources of the water, which is supplied by the Sheffield Water Company.

Old logging camp and horse barn sites that were supposed to have

been cleaned up prior to resumption of use of the reservoir water several months ago, allegedly were found by the inspector to have been left in an unsatisfactory, unsanitary condition that constantly is exposing the water to contamination.

Shortly after the cleanup campaign was launched the water company, which is owned by a group of Harrisburg men, sent its secretary-treasurer, Robert H. Craig, here to confer with the campaign committee. He promised at the time that the company would have the reservoir and watershed cleaned and that it would close to public travel the road leading to the reservoir and watershed.

To date, neither of these promises has been fulfilled, but hopes are high locally as a result of the state inspector's visit and findings, that both promises will be fulfilled soon.

Chapter 44

Her Excellent Brain

"I BELIEVE that the murders were done without Felicia's knowledge," I said. "At least about Sandra I saw her face when she learned of it, and she was shocked."

"But why did she worm her way in here three months in advance? It was a carefully thought-out plan, and here was the brain that conceived it, in my opinion."

"And I shared her room last night! Gerald, she wasn't the one who attacked me. Who was the man?"

"The impostor at Fort Michigan. I had my eye on him from the first, but Sandra threw me off. Only it seems so obvious, I keep forgetting your head is probably hazy yet. It was the chaplain, of course."

I stared at him.

"I guess my head is hazy," I admitted. "That doesn't seem to make sense."

"Think it over a bit and you'll get it. Chaplain Henry, the chaplain, said Sandra had known in Texas, was ordered to Fort Michigan. He wrote to the adjutant. You were present in the mess hall when Felicia told about the letter. She probably thought if she didn't the adjutant would, so it was good strategy. The letter asked, you remember, about rooms, and also detailed his program of action, including his plans for purchasing a new Ford in Chicago and driving it here."

"He even asked where he should stop for dinner. Dollars to crullers, as the saying goes, she wrote back and recommended Fieldstone Inn, saying that here was the mind behind this coup, and I have plenty of reason to think so. Her husband, after that near escape from the elevated station, was in need of a hide-out. She knew of his susceptibility to poison oak, and there was enough of it around the post to give her the idea. The chaplain delivered himself into her hands."

"The husband—call him Bridewell for the sake of convenience, though it's probably not his name—lay in wait at the inn. You were with me the night I tried to find someone who had seen him. I haven't been able to prove it yet. But I know how it was worked. It's the only possible way. An acquaintance struck up, a casual mention of Fort Michigan, and the offer of a lift. Once in the car, events probably took place much as described later, but with important omissions. The real chaplain was not needed, or some similar method which would leave no trace after the body was burned."

"Felicia had been to Chicago that day. It was the following day, after I arrived, that she told you she had to go back, as they had sent her the wrong girdle. I'll wager she really bought that girdle, really exchanged it the next day. It gave her all the excuse she needed to make two trips to Chicago on consecutive days."

"The first night she met Bridewell by prearrangement, on some deserted road. The body of the chaplain was transferred to the luggage compartment of her car. Bridewell drove the chaplain's car back to Chicago, checked all his luggage at the La Salle Street Station and drove back to the place where the car was later found abandoned. Felicia picked him up there, drove him to the edge of the reservation, where he stripped."

"Why? Why strip?"

Two Reasons

"TWO reasons. Felicia's excellent but misguided brain again. I'm sure. First reason, the chaplain's clothes would not fit him. Second reason, he made himself a laughing stock, and there is nothing quite so disarming to suspicion as that. On yes, one more reason—the poison oak. That was the most essential part of the disguise. He had been seen, and his fingerprints were known. And, while Felicia had made careful inquiries and found that no one on the post knew the real chaplain, there was always the chance of some accidental meeting, like Sandra's. The poison oak was meant to take care of that. I think he must have rolled in the

SHEFFIELD MAN NAMED HEAD OF CO. OIL GROUP

At a meeting of the Warren county division of Associated Petroleum Industries of Pennsylvania, held Thursday afternoon at the Carver House, John G. Cochran, of Sheffield, was elected chairman for the ensuing year.

Other officers are W. W. Muir, of Warren, vice-chairman, and Charles H. Eaton, Warren, secretary.

"Our organization in conjunction with a state-wide organization," stated Mr. Cochran, newly elected leader of the group. "We are organized in the interests of our 2,200,000 automotive customers in this state. These customers, a majority of whom earn less than \$30 a week, are the most heavily taxed of any group and are paying in taxes and special fees more than \$110,000,000 a year for the privilege of operating a motor vehicle. This means that they are paying approximately 37 percent of all state taxes collected."

"Our organization in conjunction with similar groups in every county in the state, is working for gasoline tax reduction, and elimination of the diversion of motor tax revenues to purposes other than highway improvement. We favor a scientifically planned program for the development and financing of the state highway system and we believe in fostering and encouraging economical highway transportation."

"We cooperated actively in securing deferred registration for Pennsylvania motor vehicle owners, making it possible to secure license plates on April 1st instead of January 1st when family budgets are at their lowest, and which produced almost a million dollars in additional state gasoline taxes."

"Included in our membership are all the leading oil men in the county and our plans for 1940 and 1941 include doing everything possible to secure the motor vehicle owner a fair deal and to modify the present excessive load of taxation imposed on this group."

Committees named at Thursday's meeting include the following: Legislative—Floyd Clinger, Warren, chairman; H. W. Schmidt, Warren, vice-chairman; Ira G. Darling, Russell, Elton Barton, Youngville; Harold Hawkey, Tidoute; Ross Ruhlman, Warren.

Public relations—H. D. Allen, Warren, chairman; H. D. Hubbs, Warren, vice-chairman; W. L. Mariner, Youngville; Lloyd B. Jones.

SHEFFIELD MAN NAMED HEAD OF CO. OIL GROUP

At a meeting of the Warren county division of Associated Petroleum Industries of Pennsylvania, held Thursday afternoon at the Carver House, John G. Cochran, of Sheffield, was elected chairman for the ensuing year.

Other officers are W. W. Muir, of Warren, vice-chairman, and Charles H. Eaton, Warren, secretary.

"Our organization in conjunction with a state-wide organization," stated Mr. Cochran, newly elected leader of the group. "We are organized in the interests of our 2,200,000 automotive customers in this state. These customers, a majority of whom earn less than \$30 a week, are the most heavily taxed of any group and are paying in taxes and special fees more than \$110,000,000 a year for the privilege of operating a motor vehicle. This means that they are paying approximately 37 percent of all state taxes collected."

"Our organization in conjunction with similar groups in every county in the state, is working for gasation. Otherwise his suspicions might have been roused."

"Of course the chaplain kept the brief case in order to prove his identity," I said. I couldn't seem to get over calling him the chaplain. "What was Felicia doing all this time?"

"Going quietly about her business. She drove home, locked her car in the garage and waited for the wrong girl to arrive."

"I rode as far as the Post Exchange with her that afternoon," I recalled, shivering a little. "Gerald, you don't mean—"

"The body was unquestionably in the back of the car. Was she nervous, not anxious for your company?"

"Yes, I suggested going in with her and she put me off. She went to see the chaplain, too, in the hospital. She was going to buy him some underwear."

"Very cool. She made use of everything. Even underwear. I think he really inspired her. Of course she stole his second insignia and planted it in the burned car—what? Did you say something?"

"Nothing—go on." I was remembering what the orderly had said the night before that rang a bell in my brain. That his uniform blouse always hung in the kitchen when he wore a white coat to wait on table.

The Authentic Touch

"SHE made people laugh at the chaplain's antics, and they couldn't take the chaplain seriously. Same way with the girl. Always the authentic touch. How could anyone question the predicament of a woman caught out in public clothed only in her girlish?"

"She drove that car out beyond the target range herself and ditched it, first having arranged the corpse in the driver's seat—remember, he was a small man, and Felicia no weakling. A little kerosene spilled here and there, a candle sheltered from draft that would take an hour or more to burn down until it could ignite the soaked cushions, or oil-soaked rags—"

"She was scared white when she got back to the club."

"I don't doubt it. Suppose she had been seen—suppose the candle had gone out. They must have used carbon monoxide on the chaplain, in case the fire failed and the car was discovered too soon. Or she could always have gone back in the small hours when everyone was asleep and made certain the second time."

"Gerald, who was Felicia? And why should she plan two awful crimes like that? Not just for money. I can't believe anyone would do such things just for money. The theft of a child—and the cold-blooded murder of a good man—"

"The worst crimes are for money," Gerald said with quiet bitterness. "And they are usually committed by people who have convinced themselves that they have a grudge against the world. Like Sandra. You read that part of her document, didn't you? The rest of it—the incriminating part—told how they fooled her, too. At least, the chaplain did. She never knew Felicia was in it. She simply knew Bridewell was an impostor; but when she confronted him with her knowledge he claimed to be a friend of the real chaplain. The story they hatched was that the chaplain had been refused leave to go to the bedside of a dying relative and that he, Bridewell, had agreed to attempt the harmless deception."

"And Sandra believed that?"

"So she said; but perhaps she didn't, really. At any rate, she saw a chance of turning a penny and hadn't the wit to make the obvious deduction when the car was burned, or to realize that she was playing with dynamite. The nearest she came to the truth was to think he might be a spy."

"But that was later, after Ivan was killed, when she didn't really care what happened. Ivan had been in Hollywood and, penniless, had hitch-hiked or bummed his way as far as Chicago. He came to her for money—probably not the first she had given him. When you and Julia interrupted them on the barge—yes, Colonel Penant told me all that—they made an appointment to meet there later after the party broke up. That was why Sandra was so long in giving the alarm."

"She waited until Mimi was asleep, borrowed her car and drove back out to the beach, expecting to find Ivan waiting for her there. He was there, all right, but she didn't find him. He must have been killed by Bridewell while you girls were absent from the barge. And it was undoubtedly meant to look like an accident—"

HAS SECOND MISFORTUNE

Mrs. Minnie Ludwig, aged 80 years, one of the old and respected citizens of Lander is having more than her share of hard luck. A year ago she had the misfortune to fall and break a hip, but had recovered nicely and was able to get about without assistance and enjoy herself. Thursday, however, she fell from her porch and broke the same hip a second time. She has been removed to the home of her son F. M. Ludwig, at Lander, and her condition is reported as good.

ONE PEOPLE, GOVERNMENT, ARMY

How far the plan has gone to enlist a home defense force to replace the National Guard if the latter is called into active service, we don't know.

It is certainly worth considering. But one thing must be carefully provided:

Any such force must be a legally constituted part of the U. S. defense forces, under their leadership and responsible to them. It is perfectly all right that such a force be recruited largely from veterans' organizations. But though we respect the veterans' organizations as probably more patriotic and devoted to their country than any other cross-section of the people, even such organizations should not be allowed to form armed organizations on their own. All members of any such home defense force should be serving their government direct, and not through even the most purely patriotic private organization.

"One people, one government, one army" is the only safe guide.

TAKE AIM BEFORE FIRING

The man who fires a shotgun into a thicket often hits something or other. But not always what he thought he was shooting at.

Because passing laws is sometimes a little like that, closest attention should be given to the Voorhis bill now pending in the Senate. It provides drastic regulation for every organization subject to foreign control which engages in military or political activity, or which seeks to gain control of the government by force.

The game at which this shotgun is aimed should be brought down, right enough. But the aim wants to be steady and dead on the bull's-eye. As presented, there seems a chance that this bill might be used against labor unions, long-established military organizations or groups, while leaving scot-free Nazi groups whose connection with parent organizations at home could not be shown at all.

It is hard to aim shotguns like this with complete assurance that the shot won't scatter off the target. That's no reason for not having the shotgun, or for not firing it. What's needed is the most careful head that can be drawn.

WEEKLY SERMONETTE

"THE GLORY OF THE CHURCH"
REV. R. S. NAYLOR
Pastor of the Russell Methodist Church

TEXT: Ephesians 3:21—"Unto Him be glory in the Church by Jesus Christ throughout all ages."

We do well to remind ourselves again and again of the true nature of the Church and by whom it was founded.

The Church, unlike every other organization, was not established by human beings. It was founded by God. It was the natural result of Calvary, the Resurrection and Pentecost.

The Church is not an association of people holding similar opinions concerning the answer to the enigma of life.

It is not a social club with branches in every land; not a society for the study of religion; not an international benevolent agency.

The Church of Christ is that society of second-born men and women established to carry to completion God's plans for the redemption of the world. The Church is that fellowship of consecrated lives bound together in faith and by common allegiance to the Son of God.

Above all else, what distinguishes the Church from every other institution, as some one has pointed out, that of the Church, and the Church only, can it be said that, "He purchased it with His own Blood."

I glorify God for the Church of Christ also, because of the task which the Church exists; and that to proclaim the Gospel and extend the reign of the Christian faith. What other organization is committed to this task? There is but one body which carries out this sacred task; only one organization which declares the Gospel far and wide and proclaims to the world that one message which can save humanity from barbarism and destruction and that body is the Christian Church.

The Church was placed in this mortal realm by none other than God Himself to combat evil in all its forms, to declare to the world the saving grace of Jesus Christ, to point men onward and upward to the victory of the Kingdom of God.

Its divine mission is to make known to all men where humanity must stand if its soul is to be saved, its sanity preserved and its peace to be won.

Suffering, distressing, toiling and looking to God for power, the Church's task is to serve humanity, preach the gospel of redemption, and lay down its weapons of faith and love only when the world sees a better day dawning and Christ acknowledged as King of kings and Lord of lords and Saviour and Redeemer by every land and people.

Every graceful spire pointing to the heavens, every little Bethel, every hill-side preaching station in city, town and country here, and in the far-flung corners of the earth speaks of God's love for mankind, and His determination, by the founding of His Church and the appointing of its mission, to reconcile the world unto Himself.

May the day speedily come when truly there will be all glory in the Church to the Lord God who established it and the Saviour who purchased it with His own Blood.

PRAYER: Give power, O God, to Thy Church, that she may overthrow the forces of evil and establish Thy righteousness and bring redemption to mankind. Amen.

The Formula That Paralyzed Europe

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Ran into Mel Adams, fresh back from Cincinnati. . . Mel Adams used to write a weekly summary of Big Ten sports activities for the Honolulu Star-Bulletin before he became identified with a recording company and with various dance bands throughout the country. . . What was he doing in Cincinnati? . . . He was spending the weekend with Hal Kemp, who is playing the Beverly Hills country club there. . . What did Kemp have on his mind? . . . He had, precisely what any other young expectant father would have on his mind.

Most of the time Hal was on long distance, talking to Mrs. Helen Forrester here in New York. . . Mrs. Forrester is the mother of Mrs. Kemp, the former Martha Stephenson. . .

"It's a funny thing," says Mel, nipping his brow with a limp flourish. . . "When the hands on the floor, almost every other set is a medley of old timers. . . The customers like it. . . They pick 'em out of the hat and go way back. . . Five years, ten years, sometimes twenty.

"Well, there I was, and the telephone rang. There Hal was, clicking into the booth like a scared rabbit. . . There the band was, whipping into a medley of old time tunes. . . I had one eye on the booth and one ear on the band. . . I could see Hal's face through the door as they gave him the big news. . . What do you think the band was playing when he got that news? . . . You'd never guess in a thousand years. . . It was 'Baby Face'."

OUR aviation note for the week concerns Larry Clinton, who was lazily piloting his plane over the sea between Fire Island and the mainland the other morning when a U. S. army pursuit ship whipped by and gave Larry a signal. . . Larry waved back, reflecting how friendly the army fliers seem to be. A few seconds later the pursuit streaked past again. Calmly plodding along at about 90 miles per hour, Larry seemed to be standing still when the army plane cut past him. This time Larry got what the army flier meant. It wasn't just a friendly salute from one flier to another. It meant get-the-hell-away-from-this-area—we're-having-target-practice. Clinton got.

MAY go down to Charlottesville, Va., next week and watch Franchot Tone and Madeleine Carroll make a picture. . . Not many know that Kate Hepburn could make a living playing golf if she wanted to quit the theater. She used to be Connecticut state women's champion. . . Those professional chess players in the midtown galleries earn 18 bucks a week. Their job is to play with anybody who wants to play. Tiger's a checker professional here, too, who hasn't lost a game in eight months. He plays about 20 games a day. "No system to it at all," he says. "You just sit back and wait for the other fellow to beat himself."

ONE PEOPLE, GOVERNMENT, ARMY

How far the plan has gone to enlist a home de-
fense force to replace the National Guard if the latter
is called into active service, we don't know.

It is certainly worth considering. But one thing
must be carefully provided:

Any such force must be a legally constituted part
of the U. S. defense forces, under their leadership and
responsible to them. It is perfectly all right that such
a force be recruited largely from veterans' organiza-
tions. But though we respect the veterans' orga-
nizations as probably more patriotic and devoted to
their country than any other cross-section of the
people, even such organizations should not be allowed
to form armed organizations on their own. All mem-
bers of any such home defense force should be serving
their government direct, and not through even the
most purely patriotic private organization.

"One people, one government, one army" is the
only safe guide.

TAKE AIM BEFORE FIRING

The man who fires a shotgun into a thicket often
hits something or other. But not always what he
thought he was shooting at.

Because passing laws is sometimes a little like
that, closest attention should be given to the Voorhis
bill now pending in the Senate. It provides drastic
regulation for every organization subject to foreign
control which engages in military or political activity,
or which seeks to gain control of the government by force.

The game at which this shotgun is aimed should
be brought down, right enough. But the aim wants
to be steady and dead on the bull's-eye. As presented,
there seems a chance that this bill might be used
against labor unions, long-established military orga-
nizations or groups, while leaving scot-free Nazi groups
whose connection with parent organizations at home
could not be shown at all.

It is hard to aim shotguns like this with complete
assurance that the shot won't scatter off the target.
That's no reason for not having the shotgun, or for
not firing it. What's needed is the most careful bead
that can be drawn.

WEEKLY SERMONETTE

"THE GLORY OF THE CHURCH"

REV. R. S. NAYLOR
Pastor of the Russell Methodist Church

TEXT: Ephesians 3:21—"Unto Him be glory in the Church
by Jesus Christ throughout all ages."

We do well to remind ourselves again and again of the true
nature of the Church and by whom it was founded.

The Church, unlike every other organization, was not established
by human beings. It was founded by God. It was the natural result
of Calvary, the Resurrection and Pentecost.

The Church is not an association of people holding similar opinions
concerning the answer to the enigma of life.

It is not a social club with branches in every land; not a society
for the study of religion, or an international benevolent agency.

The Church of Christ is that society of second-born men and
women established to carry to completion God's plans for the re-
demption of the world. The Church is that fellowship of consecrated
lives bound together in faith and by common allegiance to the Son
of God.

Above all else, what distinguishes the Church from every other
institution, as some one has pointed out, that of the Church, and the
Church only, can it be said that, "He purchased it with His own Blood."
I glorify God for the Church of Christ, because of the task
for which the Church exists; and that to proclaim the Gospel and
extend the reign of the Christian faith. What other organization is
committed to this task? There is but one body which carries out
this sacred task; only one organization which declares the Gospel far
and wide and proclaims to the world that one message which can save
humanity from barbarism and destruction, and that body is the
Christian Church.

The Church was placed in this mortal realm by none other than
God Himself to combat evil in all its forms, to declare to the world the
saving grace of Jesus Christ, to point men onward and upward to the
victory of the Kingdom of God.

Its divine mission is to make known to all men where humanity
must stand if its soul is to be saved, its sanity preserved and its
peace to be won.

Suffering, witnessing, tolling and looking to God for power, the
Church's task is to serve humanity, preach the gospel of redemption,
and lay down its weapons of faith and love only when the world sees a
better day dawning and Christ acknowledged as King of kings and
Lord of lords and Saviour and Redeemer by every land and people.

Every graceful spire pointing to the heavens, every little Bethel,
every hill-side preaching station in city, town and country here, and
in the far-flung corners of the earth speaks of God's love for mankind,
and His determination, by the founding of His Church and the ap-
pointing of its mission, to reconcile the world unto Himself.

May the day speedily come when truly there will be all glory
in the Church to the Lord God who established it and the Saviour
who purchased it with His Blood.

PRAYER: Give power, O God, to Thy Church, that she may over-
throw the forces of evil and establish Thy righteousness and bring
redemption to mankind. Amen.

The Formula That Paralyzed Europe

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Ran into Mel Adams, fresh back from Cincin-
nati. . . Mel Adams used to write a weekly summary of
Big Ten sports activities for the Honolulu Star-Bulletin before
he became identified with a recording company and with vari-
ous dance bands throughout the country. . . What was he doing
in Cincinnati? . . . He was spending the weekend with Hal Kemp,
who is playing the Beverly Hills country club there. . . What did
Kemp have on his mind? . . . He had precisely what any other
young expectant father would have on his mind.

Most of the time Hal was on long distance, talking to Mrs.
Helen Forrester here in New York. . . Mrs. Forrester is the
mother of Mrs. Kemp, the former Martha Stephenson. . .
"It's a funny thing," says Mel, mopping his brow with a limp
flourish. . . "When the band's on the floor, almost every other set
is a medley of old times. . . The customers like it. . . They pick
em out of the hat and go way back. . . Five years, ten years,
sometimes twenty."

"Well, there I was, and the telephone rang. There Hal was,
ducking into the booth like a scared rabbit. . . There the band
was, whipping into a medley of old time tunes. . . I had one eye
on the booth and one ear on the band. . . I could see Hal's face
through the door as they gave him the big news. . . What do
you think the band was playing when he got that news? . . . You'd
never guess in a thousand years. . . It was 'Baby Me.'"

OUR aviation note for the week concerns Larry Clinton, who
was lazily piloting his plane over

the sea between Fire Island and the mainland the other morning
when a U. S. army pursuit ship whipped by and gave Larry a signal. . . Larry waved back, re-
flecting how friendly the army fliers seem to be. A few seconds
later the pursuit streaked past again. Calmly plodding along at
about 90 miles per hour, Larry seemed to be standing still when
the army plane cut past him. This time Larry got what the
army flier meant. It wasn't just a friendly salute from one flier to
another. It meant get-the-hell-away-from-this-area—we're hav-
ing-target-practice. Clinton got.

MAY go down to Charlotteville, Va. next week and
watch Franchot Tone and Madeleine Carroll make a picture. . .
Not many know that Kate Hepburn could make a living playing
golf if she wanted to quit the theater. She used to be Connecticut
state women's champion. . . These professional chess players
in the midtown galleries earn 18 bucks a week. Their job is to
play with anybody who wants to play. There's a checker profes-
sional here, too, who hasn't lost a game in eight months. He plays
about 20 games a day. "No system to it at all," he says. "You
just sit back and wait for the other fellow to beat himself."

A Washington Daybook

By JACK STINNETT

WASHINGTON—It's gotten so every day is moving day in
Washington. Walk around the streets in the government
building section in the evening or at night and you are lucky if
you don't step on a typewriter, butt your brains out on a filing
cabinet or fall into a desk drawer.

The reason: National defense.
The government is short on of-
fice space and is trying to juggle
and jockey its various units into
a new set-up that will take care
of the rapidly spreading defense
personnel.

It has W. E. Reynolds, the pub-
lic buildings commissioner, nearly
crazy—but he isn't the only
one. A Reconstruction Finance
corporation employee, returning
after a short illness to his office
in the old Commerce building,
found some Old Age Insurance
division employees working there.
He swears it was two days when
the new phones were connected—
before he could locate his office.
(Note: His personnel director re-
fused to accept the alibi, docked
him for two more days off.)

Then there is the case of the
Potomac Park apartments. That
shows how desperate the situa-
tion is—Uncle Sam taking office
space in apartment buildings.
As a matter of fact, Uncle Sam
has been using this apartment for
some time. The Social Security
board has been there, or at least
the above-mentioned Old Age In-
surance division of the SSB, has
been there for some time. They
moved out to make way for war
department and national defense
employees.

This sort of triple play—mov-
ing three offices to accommodate
one new one—is going on all the
time. It's the only way adequate
quarters can be apportioned.

In one case, the government
has taken over an old roller-skat-
ing rink and is converting it into
offices for the justice department's
alien registration division.

Think Of 200,000 Rugs

IF YOU are interested in figures,
the federal departments now
occupy nearly 21,000,000 square
feet of space. In other words, if
you spread 200,000 nine-by-twelve
rugs out on the ground, you could
just about take care of Washing-

ton government workers, but
you'd still have to find a place for
the congressmen and senators.
The office space problem isn't
the only one raised by national
defense to haunt the sleepless
nights of federal officials. The res-
idential housing problem has
them sweating, too, and come
what may, it looks like the cap-
ital is in for a building boom.

Several government and pri-
vate agencies already are work-
ing separately on this and recent-
ly Charles F. Palmer, a hard hit-
ting World War cavalry officer
from Atlanta, Ga., who is recog-
nized as one of the country's lead-
ing authorities on housing, was
appointed defense housing coordi-
nator.

His organization hasn't had
time to get under way, but its
work is certainly cut out. It'll be
Palmer's task to see that all the
other agencies function properly
and that when the influx of de-
fense workers really reaches pro-
portions there is housing accom-
modation, at reasonable rentals,
for all.

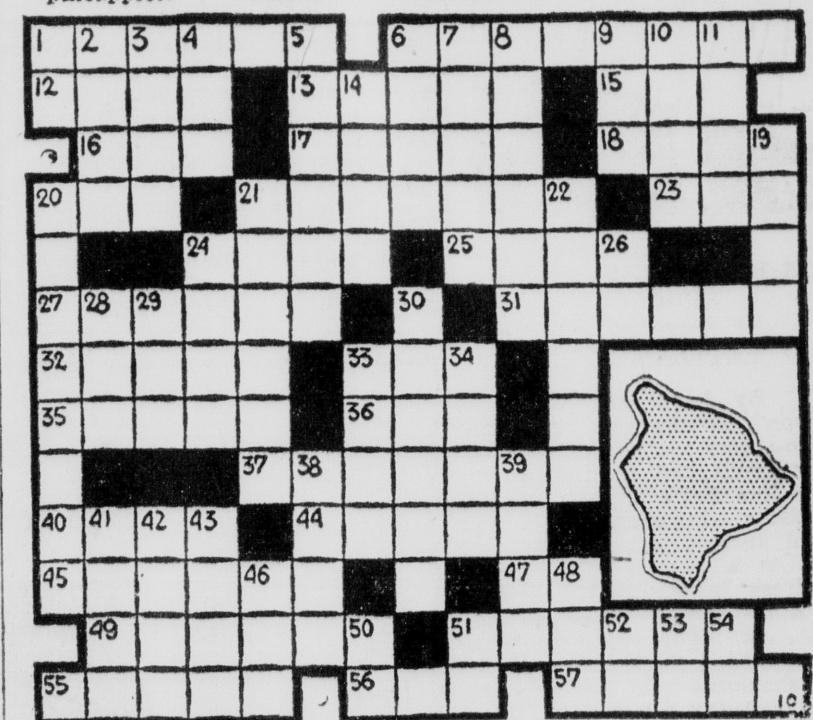

But Not In Alleys
ONE of the government agen-
cies, and one with a charming
name by the way, is the Alley
Dwelling authority. So far this is
the only one I've heard of that
has any definite plans made. They
are ready to throw up 1,600 low
rent houses (not in alleys, by the
way) as soon as congress gives
them the wherewithal.

That gives you some idea of the
proportions that defense is going
to take in Washington. Private
rentals here (already among the
highest in the country) have
oozed up only slightly. Rumor a
few weeks ago that they were go-
ing to skyrocket brought a warn-
ing from congress that if lan-
lords tried any profiteering mon-
ey business, the government
would slap federal control on all
rentals.

Medical School FOUR YEARS

The four years required Medical School study is divided approximately as follows:

1st Year—The future Doctor of Medicine must master the fundamental science of the human body: such as Embryology (development of human being); Physiology (study of all organs in health); Anatomy (study of body structure in health); Histology (microscopic study).

2nd Year—Intensified form of above studies. Beginnings of study of Pathology (effect of diseases on various organs); Diagnosis (comparison of diseased organ to healthy).

3rd Year—Under trained instructors and practicing physicians, the embryonic Doctor begins to meet patients, watching actual clinical practice, diagnosis and treatment, working from nine to twelve hours a day, six days a week for thirty-six weeks.

4th Year—Continuation of third year, constant training in rational treatment based on careful examination and diagnosis. The student is required to be responsible for twenty or more prenatal cases, and attend delivery under supervision of a specialist.

After completion of these four years, he goes through stringent examinations before being allowed to graduate. Medical Schools, Medical Associations and the laws of your State all are constantly working together to prepare your Doctor to be more competent and thorough.

Sunday service 10:45 a. m. Sunday school at 12 o'clock. Wednesday evening meeting at 8 o'clock. "Spirit" is the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 11. The Golden Text is: "Teach me to do thy will; for thou art my God; thy spirit is good; lead me into the land of uprightness." (Psalms 143-101). Among Bible citations comprising the Lesson-Sermon is the following: "I am the Lord, and there is none else, there is no God beside me: I girded thee, though thou hast not known me: That they may know from the rising of the sun, and from the west, that there is none beside me. I am the Lord, and there is none else. I form the light, and create darkness: I make peace, and create evil: I the Lord do all these things" (Isaiah 45:7). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spirit blesses man, but man cannot tell whence it cometh. By it the sick are healed, the sorrowing are comforted."

STORIES IN STAMPS

Confederate's Grave Was First in Arlington

AMERICA'S national shrine to a heroic dead is commemorated in the U. S. 50-cent stamp above, showing the Tomb of the Unknown Soldier and the amphitheater at Arlington National Cemetery.

The site of the cemetery was owned by George Washington Parke Custis, adopted son of George Washington. Mary Ann Custis and Robert E. Lee were married in the mansion which is the central feature of the cemetery. When General Lee left Arlington to assume command of Virginia troops, Federals occupied the estate, made it a headquarters and a camp. Later a hospital was established and in 1864 Arlington became a national cemetery by order of the secretary of war. The first soldier buried in Arlington was a Confederate, who had died in the hospital.

The Unknown Soldier of the World War is not the only nameless hero buried in Arlington. Bones of 2000 unknown soldiers killed in the battles of Bull Run and Rappahannock lie beneath a granite sarcophagus. Soldiers of every American war, including the Revolution, rest in Arlington.

The Great Salt Lake is 30 miles wide and 70 miles long.

MEMORY OF THE MOON

A Captivating Romance by Jeanne Bowman

STARTS IN THIS PAPER AUGUST 16

CAPITAL GOSSIP

By JACK STINETT

WASHINGTON—Political notes for today: I spend hours on separate occasions recently talking to two men high in the ranks of the two major parties and, if I have it right, both the Democrats and Republicans are counting on splits within the opposition to win victory.

There's nothing new or amazing about a party's efforts to split the opposition. The thumb-rule of battle, "divide and conquer," is as hoary in politics as it is in warfare.

What is amazing is that this year ranking politicians in BOTH parties insist that the time was never ripe for applying the split-and-win technique.

Hearst Aren't In It
SAID the Democrat: The coolness of the "Old Guard" Republicans, manifested toward Wendell L. Willkie at Philadelphia, has persisted. Many conservative Republicans, outside of the Wall Street crowd, are more lukewarm to Willkie now than when he steamrolled over the convention floor. They may not bolt outright, but they can't put their heads in electing a man whose ideas are so close to those of the New Deal and without the staunch fighting hearts of the "Old Guard" the G.O.P. is whipped. Willkie split the Republican party in Philadelphia and it isn't politically possible for him to back up enough now to bring them in line. Without these leaders to guide them in the way they should go, there will be more Republicans voting for Roosevelt this year than ever before.

Called Him A Comer
SPEAKING of minor prophets, the anonymous author of a book called "The New Dealers," published in 1934, said: "(Edward J.) Flynn is the coming man of national Democratic politics." Incidentally, the fellow described him as "a reasonably well-educated man, has read widely, collects Pennell etchings and knows something about economics. He can carry on an intelligent conversation on almost any subject, has a delightful sense of humor and plays a fair game of golf. He's just like a successful uptown business man."

He went on to say that the new national Democratic committee chairman is "shrewd and able, far abler than Farley." Observers here don't bother to argue that it couldn't be proved one way or the other. But what they do say is that Farley and Flynn are thicker than Siamese twins and that the Democrats have got to have got themselves, in effect, TWO national chairmen.

Evidence that the campaign is getting vicious: Johnny Dem—"Willkie's the futility candidate, he hasn't got a chance." Tommy Gop—"It'll be just like the case of the Duke of Windsor, a king departing with his Wallace."

HOLLYWOOD SIGHTS & SOUNDS

By ROBBIN COONS

HOLLYWOOD—"The Sea Hawk." Screenplay by Howard Koch and Seton I. Miller. Directed by Michael Curtiz. Principals: Errol Flynn, Brenda Marshall, Claude Rains, Donald Crisp, Flora Robson, Alan Hale, Henry Daniell, Una O'Connor, James Stephenson, Gilbert Roland, William Lundigan.

This is the swashbuckling epic since the late Doug Fairbanks whipped armies of the Cardinal's guards in "The Three Musketeers." It's lively, romantic, crammed with action and excitement.

The Sea Hawks, of whom Geoffrey Thorpe (Flynn) was most daring and courageous, were British privateers who preyed upon Spanish shipping and brought their booty to Queen Elizabeth's coffers—under her official frown and to her private delight. This is according to the picture, whose fidelity to history may be challenged (if anybody cares).

The picture opens at a fast clip with Thorpe's capture of the Spanish ship bearing King Philip II's ambassador (Rains) and niece, Dona Maria (Marshall) to Elizabeth's court. It's a rousing, bloody bit of sea warfare, beautifully photographed. And "The Sea Hawk" never stops moving. The action encompasses Captain Thorpe's expedition after Spanish gold in Panama; capture of his company and their imprisonment as galley slaves; their escape and a harum-scarum duel between Flynn and that villanous Wollingham (Daniell). Stand-out performance: Miss Robson as Elizabeth.

"Pride and Prejudice." Screenplay by Aldous Huxley and Jane Muriel from Jane Austen novel as dramatized by Helen Jerome. Directed by Robert Z. Leonard. Principals: Greer Garson, Laurence Olivier, Mary

"SOUTH OF PAGO PAGO" Jon Hall, Frances Farmer, Olympe Bradna, Victor McLaglen. The Isle of Manoa was lovely until the bad white man (McLaglen) came looking for pearl-bringing Shanghai Ruby (Farmer) to steal Kheane (Hall) from his native love (Bradna). Beautiful scenery, nice underwater stuff in the pearl sequences—but only unexpected development failure of the smoking volcano erupt. Fun if you're tolerant.

"Spirit" is the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 11. The Golden Text is: "Teach me to do thy will; for thou art my God; thy spirit is good; lead me into the land of uprightness" (Psalms 143-10). Among Bible citations comprising the Lesson-Sermon is the following: "I am the Lord, and there is none else, there is no God beside me: I girded thee, though thou hast not known me: That they may know from the rising of the sun, and from the west, that there is none beside me. I am the Lord, and there is none else. I form the light, and create darkness: I make peace, and create evil: I the Lord do all these things" (Isaiah 45:7). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spirit blesses man, but man cannot tell whence it cometh. By it the sick are healed, the sorrowing are comforted."

STORIES IN STAMPS

Confederate's Grave Was First in Arlington

AMERICA'S national shrine to a heroic dead is commemorated in the U. S. 50-cent stamp above, showing the Tomb of the Unknown Soldier and the amphitheater at Arlington National Cemetery.

The site of the cemetery was owned by George Washington Parke Custis, adopted son of George Washington. Mary Ann Custis and Robert E. Lee were married in the mansion which is the central feature of the cemetery.

When General Lee left Arlington to assume command of Virginia troops, Federals occupied the estate, made it a headquarters and a camp. Later a hospital was established and in 1864 Arlington became a national cemetery by order of the secretary of war. The first soldier buried in Arlington was a Confederate, who had died in the hospital.

The Unknown Soldier of the World War is not the only nameless hero buried in Arlington. Bones of 2000 unknown soldiers killed in the battles of Bull Run and Rappahannock lie beneath a granite sarcophagus. Soldiers of every American war, including the Revolution, rest in Arlington.

A Captivating Romance

CAPITAL GOSSIP

By JACK STINNETT

WASHINGTON—Political notes for today: I spent hours on separate occasions recently talking to two men high in the ranks of the two major parties and, if I have it right, both the Democrats and Republicans are counting on splits within the opposition to win victory.

There's nothing new or amazing about a party's efforts to split the opposition. The thumb-rule of battle, "divide and conquer," is as hoary in politics as it is in warfare.

What is amazing is that this year ranking politicians in BOTH parties insist that the time was never ripe for applying the split-and-win technique.

Called Him A Corner
SPEAKING of minor prophets, the anonymous author of a book called "The New Dealers," published in 1934, said: "(Edward J.) Flynn is the coming man of national Democratic politics."

Incidentally, the fellow described him as "a reasonably well-educated man, has read widely, collects Pennell etchings and knows something about economics. He can carry on an intelligent conversation on almost any subject, has a delightful sense of humor and plays a fair game of golf. He's just like a successful uptown business man."

He went on to say that the new national Democratic committee chairman is "shrewd and able, far abler than Farley."

Observers here don't bother to argue that... it couldn't be proved one way or the other. But what they do say is that Farley and Flynn are thicker than Siamese twins and that the themselves, in effect, TWO national chairmen.

Evidence that the campaign is getting vicious: Johnny Dem—"Willkie's the futility candidate, he hasn't got a chance." Tommy Gop—"It'll be just like the case of the Duke of Windsor, a king departing with his Wallace."

HOLLYWOOD SIGHTS & SOUNDS
By ROBBIN COONS
HOLLYWOOD—"The Sea Hawk." Screenplay by Howard Koch and Seton I. Miller. Directed by Michael Curtiz. Principals: Errol Flynn, Brenda Marshall, Claude Rains, Donald Crisp, Flora Robson, Alan Hale, Henry Daniell, Una O'Connor, James Stephenson, Gilbert Roland, William Lundigan.

This is the swashbuckling epic since the late Doug Fairbanks whipped armies of the Cardinal's guards in "The Three Musketeers." It's lively, romantic, crammed with action and excitement.

The Sea Hawks, of whom Geoffrey Thorpe (Flynn) was most daring and courageous, were British privateers who preyed upon Spanish shipping and brought their booty to Queen Elizabeth's coffers—under her official frown and to her private delight. This is according to the picture, whose fidelity to history may be challenged (if anybody cares).

It must be a new heat wave that's causing the red hot pitching in the major leagues these days.

The program yesterday, four-sevenths of which was produced at night, included a two-hit game, two four-hitters and a five-hitter.

The most important pitching development of the day, however, was not the best performance. It was the return of Gene (Junior) Thompson to service for the Cincinnati Reds for the first time since he was spiked in Brooklyn July 23. He beat the St. Louis Cardinals 7-2 and gave the National League champions a record of two victories in a row for the first time since July 27. Thompson held the Cards to eight hits while getting the assistance of a 10-hit attack.

Truett Sewell

The day's best hurling was turned in by Whit Wyatt, lean right-hander of the Brooklyn Dodgers, who shut out Boston 1-0 with four hits, scoring the game's only run himself. Only two batters got as far as second base and none reached third until two were out in the ninth.

Another four-hit pitching show was the one Truett (Rip) Sewell of the Pittsburgh Pirates put on in beating Chicago 6-2. He faced only 30 batters and might have had a shutout except for Bill Nicholson's 19th home run with one on in the seventh. It was Sewell's 10th win against two defeats.

The triumph raised the Pirates into the first division for the first time since the early days of the season.

Red Ruffing and Steve Sundra of the New York Yankees collaborated in the two-hit pitching performance which subdued Philadelphia 2-0. Ruffing gave up one single in the first inning, then voluntarily retired with one out in the third because of a pulled muscle in his left leg. Sundra, who hadn't won a game all year, then took over. The Yanks themselves got only eight hits.

Each of the other games in the American League were decided in the last half of the ninth.

Lefty Ed Smith of the Chicago White Sox stifled Detroit with five hits but it took a double by Mike Kreevich behind Smith's single and a sacrifice to bring home the deciding run—the only earned run of the game—in a 3-2 victory.

St. Louis saved Detroit from loss of the league lead by coming from behind to down the Cleveland Indians 4-3. For six innings Mel Harder held the Browns to two hits while his mates got him a 3-0 lead. Walt Judnich's 21st home run with one on helped erase that advantage and in the ninth Harland Clift's double, and singles by Don Heffner and Bob Swift scored the winning run.

ONTARIO OPEN WON BY SAMMY SNEAD

Buffalo, Aug. 9.—(P)—Slammin' Sammy Snead of Shawnee-on-Delaware, Pa., blasted par over the Erie Downs golf course at nearby Fort Erie, Ont., today with a brilliant 68 to capture the eighteenth annual Ontario Open.

Snead's 68, which equals the course record, plus his one under par 71 yesterday gave him an aggregate 139 for the 36-hole medal tournament. In second place, four strokes behind, was Gordon Brydson, Toronto pro, who posted 74-69-143.

HELEN JACOBS AND LA MARBLE CLASHING TODAY

Rye, N. Y., Aug. 10.—(P)—Stoic Helen Jacobs, who had the misfortune to be born about the same time as two of America's greatest women tennis stars—Helen Wills Moody and Alice Marble—has a hunch she may even her all-time series with Queen Alice today in the finals of the Eastern Grass Courts championship.

They've met five times and Alice has won three times. But if she's right today, Helen, in her 17th year of big-time tennis, may have off another of the heart-breaking defeats that have marked her as the "perennial second best."

Although Miss Jacobs was national champion four years, her victories came after Helen Wills finished and before Alice Marble came on the scene. Now, slimmer than ever and feeling much better, Helen thinks she may square the series.

In today's other feature match, Bobby Riggs, national champion, and Seattle's "comeback kid," Henry Prusoff, who ousted Frank Parker from the meet Thursday, clash to see which one will face Don McNeill in Sunday's final. McNeill battered his way into the last round yesterday with a 2-6, 6-4, 6-1, 6-3 victory over Betsy Grant.

MIDGET CARS RACE AT SPEEDWAY SUNDAY

Jamestown, N. Y., Aug. 10.—At the request of numerous racing fans, the Auto Derby Club, Inc., operators of Satan's Bowl of Death, will present fifteen Buffalo midget racers in a series of events at the Jamestown Speedway, Stockton-Kimball Stand Road, tomorrow afternoon at 2:30 p. m. There will be no jallopy racing at Satan's Bowl of Death until Sunday, August 18.

The midget cars will be driven in time trials, five heats, a consolation event and the feature race at the Speedway tomorrow. The drivers will come here after racing in the Buffalo Civic Stadium. It is the first time that midget racing programs have been presented in Western New York, outside of Buffalo.

RED JACKET BOARD MEETING TUESDAY

P. M. Printz, president of the board of directors of the 1939 Red Jackets, has called a meeting of last year's governors to go after the final report of the past season and to discuss the possibility of another team this year.

The following are asked to attend: Fred Gebhardt, Claud Schindler, Lester Blair, Father J. H. Diamond, D. E. McComas, Luke J. Noecker, Tom Armstrong, Art Peterson and Bill Rice.

Nothing of interest to players will be taken up at the meeting, which will be in the Warren National Bank building Tuesday evening at 7:30.

Gene Walker and Rick Ferrell, Senators—Former made four hits and latter singled with bases loaded in ninth to whip Red Sox.

Bob Swift, Browns—Single with two on in ninth brought victory over Indians.

PHILLY PROS IN 18-HOLE PLAYOFFS

Philadelphia, Aug. 10.—(P)—Five Philadelphia district golfers battled today in an 18-hole playoff to decide two qualifiers for the PGA tourney at Hershey later this month.

Ed Dudley, Matt Kowal, Jimmy D'Angelo, Gene Kunes and George Fazio tied at 139 yesterday in the 36-hole qualifying round, making a playoff necessary for the last two of seven qualifying places.

Ted Turner, with 135; Charles Sheppard, 136; Jimmy Thomson, 137 and Bruce Collett and Walter Brickley, 138, were the first five to qualify.

Softball Notes

BACK IN STRIDE

The Ebel's Service Station entry in the North Warren circuit got back in stride last night, nosing out the Unico, 11-10 with Christensen fanning eight men. Pierce was the catcher.

Messler and Retterer made up the losing battery. Clair Ward pounded a home run for Unico, one of the longest belts of the season.

Pastor's Pilot Weeps Salt Tears As Solons Ignore His Fighter

New York, Aug. 10.—(P)—James Joy Johnston, who manages fighters, is icked, no end.

James Joy feels his lad, Bob Pastor, who takes on Billy Conn in the Polo Grounds Tuesday night, has been slighted by (1) the bookmakers, (2) the boxing commissioners and (3) the boxing "experts."

Jimmy feels it isn't quite cricket that the gamblers have made Conn favorite at odds ranging from 5 to 7 all the way up to 1 to 2, that the boxing commission has cold-shouldered Rapid Robert in his training quarters; and that most of the "experts" are picking Pittsburgh Billy to win.

"How do those gamblers figure, anyhow?" Jimmy wanted to know. "Pastor went 21 rounds with Joe Louis. No one thinks Conn would have a chance with the Bomber. So what do they do but make Billy favorite. What kind of a business is that?"

"As for the commission—I'd like to know why two commissioners as well as a few of their deputies and inspectors have visited Mike Jacob's pet, Conn, at his training camp at Grossinger's, 108 miles from here, while up to yesterday all three commissioners, all five deputies and every one of the 22 boxing inspectors were conspicuous by their absence from Stillman's Gym where Bob is training. And Stillman's is only a nickel subway ride from their office. General Phelan finally condescended to see Pastor yesterday after word got around I was going to beef to the newspapermen.

"What would you think if you were the referee or one of the judges in Tuesday's fight? Isn't there the possibility that some one of the officials, knowing of the attention paid to Conn, may feel that his superiors are anxious to see Billy win?"

Champion Bud Ward Is a Remarkable Golfer Ferrier and Wehrle Have Faced Fire of Pros But Turnesa Picks Billows to Win Amateur

By HARRY GRAYSON
NEA Service Sports Editor

BUD WARD will have no cakewalk in defending the national amateur golf championship at Winged Foot, Sept. 9-14. There will be Jim Ferrier, the big Australian, Wilfred Wehrle, Willie Turnesa and the perennial Johnny Goodman, among others . . . and Ray Billows. The younger of the Turnesas, who came down in front at Oakmont in 1938, picks Billows, who valloped him in the New York State final in Syracuse.

Billows started slowly this summer . . . was ragged in July, but amazed Turnesa with his power in their New York State match. "Billows has thickened out physically and lengthened the arc of his swing," says Turnesa. "He's making his added weight count for distance . . . has picked up 20 yards or so off the tee."

"I used to stay abreast of him on my drives, but in Syracuse he forced me to play the odd consistently."

CRAIG WOOD, Winged Foot's Blond Bomber, wonders why Turnesa ever misses a shot, yet Billows crushed him, 8 and 6, in the New York State playoff.

And Winged Foot happens to be Billows' favorite course, which will make putting him out especially hard.

"Turnesa's upright swing verges on perfection," explains Wood. "Certain topnotch professionals may have more effective swings, but few match Willie's grace and rhythm."

"It's a treat to watch Turnesa in action. He prouettes on his toes like a ballet dancer, shifting his weight effortlessly fore and aft."

"NOBODY would call the shut-face Billows a classic stylist, but Ray compensates for that shut-face technique. He is a grand shotmaker, blessed with an ideal disposition for tournament golf. He never loses his poise . . . rarely plays a careless shot. His cold nerve counts in the pinches."

Bud Ward is a remarkable amateur. Jim Ferrier and Wilfred Wehrle have faced the fire of the professionals since early spring. But handsome as is handsome does in golf, and this easily could be Ray Billows' year.

By MERRILL BLOSSER

A black and white cartoon illustration of a young boy with a large head and a mischievous expression, wearing a tank top and shorts. He is climbing a door of a small building. The door has a sign above it that reads "IDLE HOUR COTTAGE". The boy is using his hands to pull himself up and his feet to push off from a small ledge or step. The building has a gabled roof and several windows. The background shows some trees and foliage. The style is reminiscent of mid-20th-century comic book art.

Punishing War of Air Continues

(From Page One)
Germany's import needs. At the same time Rumania, preparing to make Axis-demanded territorial concessions to Hungary and Bulgaria, sought to smooth the way with a new series of anti-Jewish measures. They were intended to quiet the country's strongly anti-Semitic Nationalists who have demanded that the government refuse to give up any territory.

With the war of aerial bombardment, argument and political maneuvering involving at least three continents, Egypt prepared to change from passive alliance with Britain to active military cooperation with the outnumbered British forces in Africa.

The press issued warnings against Italian propaganda while the armed forces stood ready to swing into action the moment Italian troops in Libya launch their anticipated drive into the land of the pharaohs.

Germany now has withheld her threatened invasion past the five-day period of high summer tides, which ended last night, but aerial attacks, considered as "preparation," continue.

PINCHOT WILL SPEND QUIET BIRTHDAY SUN.
Milford, Aug. 10.—(P)—Gifford Pinchot, twice governor of Pennsylvania and nationally-known for his forest conservation work, reaches the three-quarter century mark tomorrow but a birthday celebration will be "saved" until his son and daughter in law return from a cruise.

The tall, slender veteran of countless political campaigns plans to spend the day quietly in his home in this Pike county community.

The white-mustached one-time "Bull Moose" refuses to be drawn into a statement on Republican prospects in the coming presidential election and when asked: "What do you think of the Republican chances of carrying Pennsylvania?" replied: "I don't know."

ITALIAN RAIDERS BUSY
Aden, Aug. 10.—(P)—One soldier and three natives were killed in the capital of this British protectorate this morning by raiding Italian bombers. Seventeen persons were wounded. Material damage was reported slight.

Navy Base Visited By President

(From Page One)
A motor trip to the arsenal at Watertown, Mass., which is accelerating production of railway, sea-coast and anti-aircraft artillery and gun-carriages for the army.

The Watertown plant was one of six manufacturing arsenals which began operating around the clock today, on a three-shift basis, to speed up the output of essential war equipment.

Col. William Donovan, who commanded the "Fighting Sixty-Ninth" in the World War, boarded the president's train at Hyde Park. He was invited to tell the president what he had seen on a recently-completed secret mission in Europe, undertaken for Secretary of Navy Knox.

As the chief executive ended a six-day stay at his Hyde Park (N. Y.) home yesterday and left by special train for Portsmouth, it was reported reliably he had in mind at least four more defense inspection tours.

He has been asked to view one of the biggest peace-time military operations in the country's history, in up-state New York next weekend.

Mr. Roosevelt said at a press conference yesterday he was not sure he could take in the maneuvers.

An inspection of west coast defenses this summer is out of the question, he indicated, because it isn't safe, under present world conditions, for him to be more than 12 or 14 hours from Washington.

Tomorrow will be a day of rest for the president at sea aboard the White House yacht, Potomac, Embury, when he will put in Monday morning at Newport, R. I., to look over the Naval War College, torpedo plant and training station, then cross Narragansett bay to see the site for a northeastern air base at Quonset Point.

Monday afternoon will be given over to an inspection of the submarine base at New London, Conn., and the yard of the electric boat company at Groton, Conn.

Rumania Puts Into Force New Anti-Jew Laws

(From Page One)
The concession to the Nationalist elements on the Jewish question would lessen their opposition to the territorial negotiations, and permit the government to yield some land without serious internal difficulties.

(Berlin political circles reported German irritation—presumably directed at Rumania—over the "slowness" with which the Balkan states are negotiating their territorial claims in line with Adolf Hitler's plans for southeast Europe.)

The new anti-Jewish laws cut off most of Rumania's 755,000 Jews from public office, many professions and other fields.

TRUCK DRIVER KILLED
McConnellsburg, Aug. 9.—(P)—A Pittsburgh truck driver, George Albert, 20, was killed today when his truck got out of control on a grade, ran down an embankment and overturned. Two others in the truck, Joseph George and James Kelly, escaped injury.

Probe Presence of Dead Woman in Fugitive Car

(From Page One)
that her body interfered with his driving.

As they drove through Olton following a pistol-shotgun duel in which Police Chief Ben D. Clark was critically wounded, Lovelace said he noticed the woman was badly hit. He contended, Fisher said, that he did not know who shot her, nor did he account for her presence in the car.

The officers leaped to the running boards. A point-blank shotgun charge knocked Clark to the pavement. Irwin emptied his pistol into the car fell off as it sped away.

The body of the attractive, red-haired young woman was found on a business street a short time later.

Speeding southward over a country road, the gunmen took another car from Earl Williams, Olton. Later, near Drumright, they kidnapped Glump and commandeered his eleven year old automobile.

The negro was gone when the fugitives reached Glump's farm and Lovelace told Fisher he apparently jumped out of the car after the Olton gunfight.

No Advance Commitments or Understandings on Foreign Policy

(From Page One)
Willkie added that if any responsible administration spokesman wanted to take a public position on foreign policy Willkie might "on appropriate occasions, comment thereon." He previously expressed willingness to reply to President Roosevelt on any question the chief executive might ask him.

The Republican nominee recalled that Mr. Roosevelt, when elected in 1932, had declined to enter any agreements with Herbert Hoover, then chief executive.

Willkie said he would talk Sunday evening with Herbert Hoover, who will come here from West Yellowstone, Mont. Alf M. Landon, the 1936 Republican nominee, will have luncheon with Willkie here Tuesday.

Punishing War of Air Continues

(From Page One)

Germany's import needs.

At the same time Rumania, preparing to make Axis-demanded territorial concessions to Hungary and Bulgaria, sought to smooth the way with a new series of anti-Jewish measures. They were intended to quiet the country's strongly anti-Semitic Nationalists who have demanded that the government refuse to give up any territory.

With the war of aerial bombardment, argument and political maneuvering involving at least three continents, Egypt prepared to change from passive alliance with Britain to active military cooperation with the outnumbered British forces in Africa.

The press issued warnings against Italian propaganda while the armed forces stood ready to swing into action the moment Italian troops in Libya launch their anticipated drive into the land of the pharaohs.

Germany now has withheld her threatened invasion past the five-day period of high summer tides, which ended last night, but aerial attacks, considered as "preparation," continue.

PINCHOT WILL SPEND QUIET BIRTHDAY SUN.

Milford, Aug. 10.—(P)—Gifford Pinchot, twice governor of Pennsylvania and nationally-known for his forest conservation work, reaches the three-quarter century mark tomorrow but a birthday celebration will be "saved" until his son and daughter in law return from a cruise.

The tall, slender veteran of countless political campaigns plans to spend the day quietly in his home in this Pike county community.

The white-mustached one-time "Bull Moose" refuses to be drawn into a statement on Republican prospects in the coming presidential election and when asked: "What do you think of the Republican chances of carrying Pennsylvania?" replied: "I don't know."

ITALIAN RAIDERS BUSY

Aden, Aug. 10.—(P)—One soldier and three natives were killed in the capital of this British protectorate this morning by raiding Italian bombers. Seventeen persons were wounded. Material damage was reported slight.

Navy Base Visited By President

(From Page One)

A motor trip to the arsenal at Watertown, Mass., which is accelerating production of railway, sea-coast and anti-aircraft artillery and gun-carriages for the army.

The Watertown plant was one of six manufacturing arsenals which began operating around the clock today, on a three-shift basis, to speed up the output of essential war equipment.

Col. William Donovan, who commanded the "Fighting Sixty-Ninth" in the World War, boarded the president's train at Hyde Park. He was invited to tell the president what he had seen on a recently-completed secret mission in Europe, undertaken for Secretary of Navy Knox.

As the chief executive ended a six-day stay at his Hyde Park (N. Y.) home yesterday and left by special train for Portsmouth, it was reported reliably he had in mind at least four more defense inspection tours.

He has been asked to view one of the biggest peace-time military operations in the country's history, in up-state New York next week.

Mr. Roosevelt said at a press conference yesterday he was not sure he could take in the maneuvers.

An inspection of west coast defenses this summer is out of the question, he indicated, because it isn't safe, under present world conditions, for him to be more than 12 or 14 hours from Washington.

Tomorrow will be a day of rest for the president at sea aboard the White House yacht Potomac, Embarking from Boston late today, he will put in Monday morning at Newport, R. I., to look over the Naval War College, torpedo plant and training station, then cross Narragansett bay to see the site for a northeastern air base at Quonset Point.

Monday afternoon will be given over to an inspection of the submarine base at New London, Conn., and the yard of the electric boat company at Groton, Conn.

Rumania Puts Into Force New Anti-Jew Laws

(From Page One)

the concession to the Nationalist elements' on the Jewish question would lessen their opposition to the territorial negotiations, and permit the government to yield some land without serious internal difficulties.

(Berlin political circles reported German irritation—presumably directed at Rumania—over the "slowness" with which the Balkan states are negotiating their territorial claims in line with Adolf Hitler's plans for southeast Europe.)

The new anti-Jewish laws cut off most of Rumania's 755,000 Jews from public office, many professions and other fields.

TRUCK DRIVER KILLED

McConnellsburg, Aug. 9.—(P)—A Pittsburgh truck driver, George Albert, 20, was killed today when his truck got out of control on a grade, ran down an embankment and overturned. Two others in the truck, Joseph George and James Kelly, escaped injury.

Goats don't eat tin cans; they chew at the labels, in search of the glue underneath.

Germans Call These "Poison Teeth"

Lacking heavy battleships, the German navy largely relies on swift, modern destroyers which Nazi censor terms "poison teeth of German navy." Exclusive photo, above, shows part of destroyer fleet at Wilhelmshaven, great Nazi naval base, rarely photographed since war's start. Heavy cruiser is in background.

Probe Presence of Dead Woman in Fugitive Car

(From Page One)

that her body interfered with his driving.

As they drove through Oilton following a pistol-shotgun duel in which Police Chief Ben D. Clark was critically wounded, Lovelace said he noticed the woman was badly hit. He contended, Fisher said, that he did not know who shot her, nor did he account for her presence in the car.

Clark and Constable C. L. Irwin, hunting three men who robbed an Oilton restaurant earlier in the day, halted a black sedan in which Hall, Lovelace, the woman and a negro were riding.

The officers leaped to the running boards. A point-blank shotgun charge knocked Clark to the pavement. Irwin emptied his pistol into the car, fell off as it sped away.

The body of the attractive, red-haired young woman was found on a business street a short time later.

Speeding southward over a country road, the gunmen took another car from Earl Williams, Oilton. Later, near Drumright, they kidnapped Glimp and commandeered his eleven year old automobile.

The negro was gone when the fugitives reached Glimp's farm and Lovelace told Fisher he apparently jumped out of the car after the Oilton gunfight.

MILD RALLY IN INDUSTRIALS

New York, Aug. 10.—(P)—Quiet strength of selected industrials gave stocks a mild rallying hue in today's market.

While many leaders loafed throughout the brief session, favorites managed to tack on further recoveries of fractions to a point or so.

Buying flurries occasionally lifted volume and transfers for the two hours were around 175,000 shares.

Among stocks accorded support were Allied Chemical, U. S. Steel, General Motors, Briggs Mfg., Sears Roebuck, Johns-Manville, Great Northern, Sperry, Westinghouse, International Paper common and preferred, White Sewing Machine, Kennebec, Western Union and Baldwin Locomotive.

Denounce Maloney Proposal

reason for abandoning the traditional American peacetime policy of voluntary enlistments.

He predicted that supporters would find it necessary to compromise the Burk-Wadsworth bill before they could obtain Senate approval.

The Senate will resume debate on the Burk-Wadsworth measure Monday after a weekend recess.

While crowded galleries looked on yesterday, Senator Holman (R-Ore) excited the Senate with an assertion that he had learned from "authoritative military sources" of "imminent peril of invasion of Alaska" and the "endangering of the entire Pacific slope."

Holman later explained to reporters that he was not referring to any immediate possibility of invasion, but regarded Japan as the No. 1 threat to American peace and looked to Alaska as the most vulnerable point of attack.

Predictions of possible attacks on the United States brought a challenge from Senator Wheeler (D-Mont.)

"Those men who stand here and say that Germany is going to attack us in three months or six months—why don't they have the courage to go to the people of the country and say 'let's declare war'?" He shouted. "It's nonsense," he added.

WARLIKE GESTURE

Tokyo, Aug. 10.—(P Via Radio)—Domei, Japanese news agency, reported today that numerous anti-British leaflets were placarded on the walls of Tokyo last night by Nationalist groups calling for an "attack on England" and for Japan to "make use of the entire strength of our nation."
